Before sewer excavation or construction begins, the owner or installing contractor must apply for and receive a sewer connection permit and pay all applicable fees. Before a sewer line may be buried or put into use, it must be inspected and approved by an inspector from the City of Locust as to be in compliance with minimum requirements for design, materials, and workmanship. Notification of 72 hours (excluding weekends and holidays) is required for inspection. An owner/contractor making connection to the Locust Wastewater Collection System without a permit will be subject to a fine of \$250.00.

A COMPLETED SKETCH must be included with this application form upon its return for approval. A sample form listing required information is included for your reference.
